

PC-ACE Pro32 General Setup

The PC-ACE Pro32 General Setup document provides additional information to setup PC-ACE Pro32 to be used for Durable Medical Equipment (DME) transactions exchanged with CEDI.

This document will cover the following topics

Backing Up PC-ACE Pro32.....	2
Set Up User Accounts.....	4
Setting up a Submitter ID	6
Setting up Ordering Provider Information.....	8
Setting up the Billing Provider	10
Setting up Payers (Insurances).....	13
Setting up Patient Information.....	14
Option for Electronic Remittance Advice.....	18

PC-ACE Pro32 is designed for both Institutional (Medicare Part A, or hospital) and Professional (Medicare Part B, or office visits, and Durable Medical Equipment, or DME) billing. Since this is a DME support document, we will not be covering Medicare Part A or Part B functions.

This document is intended as a help guide for setting up the PC-ACE Pro32 software. It is not intended to replace the general help (accessible by the F1 key) or specific item help (accessible by right-clicking or selecting the F2 key on a specific item) functions, or the PC-ACE Pro32 User Manual itself. For help with any questions not covered here, please consult these documents.

Whenever you start PC-ACE Pro32, many of the menu options will require you to sign on. Once you sign on for one item, it will not prompt you to sign on again unless you either close the program or select **Logout Current User** from the **Security** menu item.

The sign on information can be located in the PC-ACE Pro32 Readme File downloaded with the full install of the PC-ACE Pro32 software.

Please refer to the PC-ACE Pro32 User Guide for more sign on information. The PC-ACE Pro32 User Guide can be found on the CEDI Web site <http://www.ngscedi.com> under Resource Materials or under Software Downloads and Documentation.

The current version is 2.34.0.100. To find out what version you are running, select **Help** from the PC-ACE Pro32 main menu, and drop down to **About PC-ACE Pro32**.
